01 ABOUT

Analytical depth, investor mindset.

Investment professional with 4+ years across sell-side equity research and M&A advisory — at Bernstein Société Générale Group, Valoris Securities and Ascent Capital Partners.

I build financial models, run valuations (DCF, trading and transaction multiples) and distil complex businesses into clear, actionable investment theses for institutional investors — backed by regular access to management teams.

I bring banks and financial institutions a complete, client-ready toolkit — investment analysis, due diligence, valuation and research writing — with in-depth knowledge of Moroccan and European markets and a strong interest in growth across Africa and the MENA region.
